Career Objective

Looking for opportunities to learn and enhance my technical know-how.

Work/Internship

Data Science Intern

Ineuron.ai ~ Remote

AUG 2021 - NOV 2021

Developed end to end projects in realms of Deep Learning and CV

Learned to deploy in Heroku and GCP

Got a better understanding on how neural networks work

Software Development Engineer - I

Addicor Technologies Pvt Ltd

DEC 2018 - JULY 2021

Projects

Face Mask Detection App

AUG 2021 - SEP 2021

Designed a responsive landing page for face mask detection
Implemented transfer learning of MobileNetV2 from Keras with CNN
Used Flask as the web-framework
Project deployed at https://facemaskdetectionapp.herokuapp.com

Vehicle License Plate Detection

SEP 2021 - OCT 2021

Applied OpenCV for image processing and YOLO V3 for detection
Project deployed at https://licenseplatedetectionapp.herokuapp.com

Mail Spam Detection

OCT 2021 - NOV 2021

Trained an email spam detection model with NLP and NLTK
Project deployed at https://spamdetectionwebsite.herokuapp.com

Skills

C

Python

Data Science

Exploratory Data Analysis

Machine Learning

Deep Learning

Flask

SQL

Activities
